**FOAC-ILLEA Newsletter  
Week of July 25th, 2022**

As we approach the end of the first month of the 2<sup>nd</sup> half of 2022, we see a continued assault on the rights and liberties of Americans by the federal government. In the name of “safety” the executive branch and many in the legislative branch are constantly moving to

restrict the liberty of law-abiding Americans while seeking to (directly and indirectly) empower criminals and those who are not Americans.

The newest version of the “**Assault Weapon Ban**” is yet another assault on those that already obey the law. The 1994 ban, that “sunset” in 2000 had proven to have been a failure in addressing crime and only was an infringement on the law-abiding citizens of the country. With this know, rather than taking actual steps to address the actual problem of violent criminal behavior and lawlessness, this government is only interested in restricting those who freely exercise their right to self-defense. The government is constantly attempting (and many time succeeding) to weaponize the law against law-abiding Americans. I have asked it before, and I’ll ask it again, these so-called representatives of ours... who do they *really* work for??

FOAC-ILLEA is *generally* concerned with a single issue; the individual right to keep and bear arms. We do this by working to protect Article 1 Section 21 of the Pennsylvania Constitution and the 2<sup>nd</sup> Amendment of the US Constitution. But let us, for a moment, take a step back and look at the big picture from a wider view.

**Either our “leaders” in government are completely inept or they are ACTIVELY waging a war on Americans freedom and posturing to take total control.**

In the 1980’s and early 1990’s, when I was a kid in Cameron County, Pennsylvania, we had excellent history and civics teachers and a strong sense of honor, public service, respect, and “traditional American values”. We said the pledge every day and recited it and a

prayer before each assembly. The student body stood up for the Senior class when they came in to sit down for assemblies. We would bring our rifles to school so that we could go hunting after school. Never once was there a problem. We celebrated “freedom week” and would honor veterans and freedom fighters from around the world. We were (and most of us still are) proud to Americans from Pennsylvania.

Our history teachers taught us that the Nazi’s in Germany and the Communists in China were able to ultimately take control by disarming the population. We were taught that although “taxation without representation” was a factor in American revolution, it wasn’t till the British Crown came for the colonists’ guns that the shooting war started.

One of my favorite teachers, Mr. Narby, taught a class called “POD” (problems of democracy). Looking back on it, the class was a civics lesson on steroids. We were still in the hot part of the cold war, and he would tell us that “we” would eventually defeat the Soviets by making them spend more money than they had. Economic warfare was ultimately going to be the strategy that would topple the hammer and sickle. History has proven Mr. Narby correct. Governments in central America were destabilized and overthrown by tampering with the security of the election process; misplacing or finding ballots or intimidating people to vote or not vote on election day. Even in our own country in the 1800’s, waves of immigrants were taken from the boats straight to the polling place and told to “Vote for Tammany”. The Nazi’s ultimately took complete control of the German Republic by stifling or eliminating those who opposed National Socialism.

It is interesting that history and civic are rarely taught these days. Except for maybe that some of the founding fathers owned slaves, and Columbus was “mistaken” when he “discovered” America and then “destroyed” the indigenous population. These singular narratives help to indoctrinate the future generations and makes them believe that the United States is actually a “bad” thing. This is a REAL problem.

Here we are in 2022. The “government” is waging an economic war on the middle class. The current economy is destroying many Americans’ financial stability, and more and more are becoming serfs to the lord of government.

The “government” is empowering violent criminals by failing to enforce existing laws and releasing them back into society to run rampant. This act alone is destabilizing the veneer of civility, ultimately making people fear for their safety.

The propaganda department (media) CONSTANTLY spreads messages of fear, helplessness, American self-loathing, and government dependency. Those that stand for liberty and “Americanism” are touted as racists, radical Constitutionalists, and extremist domestic terrorists.

Leading into the election in 2020 people were encouraged to stay home “for their safety” and use mail in ballots. People were controlled with mask mandates and

citizens were penalized for assembling in church, town hall meetings, restaurants, and Thanksgiving Dinner, while hordes of “peaceful protesters” looted, destroyed, and burned millions upon millions of dollars of private and public property (with the blessing of many in the Democratic party). Did you notice the recent frequent news reports of increasing Covid cases? Did you know that **Los Angeles is re-instating it's indoor mask mandate**, and some democratically controlled states are “considering” re-imposing restrictions? Just in time for the 2022 mid-terms no doubt. As California goes, so goes the nation, right?

Record numbers of illegal aliens are being encouraged by this administration to “come on in”. They are being set up with housing, food, EBT cards, free healthcare, and perhaps a few mail in ballots or 2 or 3.

People in government that are ACTUALLY upholding the Constitution are being **demonized and are targeted for removal**.

Lastly, the government is weaponizing the law against those that choose to exercise their most basic, constitutionally guaranteed right to self-defense.

**Again, I ask you, these so-called representatives of ours... who do they *really* work for??**

We are 2 years into the Biden administration and this Country is worse off than I have ever seen in my entire life. Obama’s promise that the country would be fundamentally transformed has come true and continues to become truer each day.

Our Constitutional Republic is a mess, but the system put into place by our founding fathers can and does work... so long as we put in the work to let it work. The 2022 midterm election is an opportunity to reset a lot of things that have gone out of control. We also can help to solve problems here in Pennsylvania. If we can maintain our pro-gun / pro-liberty majority in the house and senate, and if we can defeat Josh Shapiro things like Constitutional Carry and Strengthen Preemption will likely get reintroduced, fast tracked, passed and signed into law. As we and other organizations continue to fight in the Courts, illegal laws can be overturned, and tyrants held in check. WE MUST ALL DO THE WORK! Get out and educate your friends and family about the importance of voting for ONLY those that will support your individual right to self-defense.

I have had folks ask me, “Why are you a single-issue voter?” I answer it this way. I have not met a candidate that openly advocated for the individual right to self-

defense that did not *also* advocate for all the other rights. That is why I say “pro-gun /pro-liberty”. Remember, the right to self-defense is not only to protect yourself from criminals... it is to give you the means to protect yourself from the government too. Tyrants know this... that is why they are trying to take it away from us. We must not let this happen!

An armed and educated citizenry is the true check and balance in our Constitutional Republic and the ultimate homeland security.

## You Know What's Wrong... Here's The How Why, and What To Do About It!

By William Barclay Masterson Originally published 07/22/2022

**Since you're reading this**, I don't have to be a mind reader to know you already know quite a bit about “what's wrong.” For example, you know there is an immense war against our God given, constitutionally protected 2A. Despite the fact that this is unalienable and just reaffirmed by the Supreme Court, social, political, and legal wars are still raging against us, nonstop.

As important as this is, our immediate 2A concerns are just the tip of a great many political and cultural icebergs. So if you feel like we are all on the 2A Titanic, that's because we are. Multiple icebergs dead ahead. The alarms are sounding. We must fight, and fight back hard to prevail. If we don't, we will loose!

If both our politics and culture don't change, we will most assuredly lose! And if we lose our 2A, we will cease to be American citizens and will devolve back into ruled subjects. This is absolutely what our Founding Fathers and Framers of the Constitution raged against and feared the most!

**You may know all about some of the other “wrongs,”** like The Great Reset, ESG scores, CRT, Equity, Cloward & Piven, all parts of the financial and social, systematic takedown of America, our culture, and our traditional American way of life. It's all an amazingly awful, overwhelming overload to be forced to live through. And it's happening right here, right now, right before our eyes. This is exactly what tyranny both looks and feels like. And it's only going to get worse and worse until it is stopped. There is no other way.

You may have read THE GREAT RESET by Glenn Beck and AMERICAN MARXISM by Mark Levin. These are two of the best books that explain many of the reasons for these “wrongs.” You may understand that these “wrongs” are all part of the greatest criminal theft against America, perhaps of all time. You may be following, day-to-day, how our entire country, capitalism, history, language, customs, family structure, religion, the middle class, educational system including our children, virtually our

entire way of life is being “reset” and ripened for a complete social and political takeover they openly call the LIBERAL NEW WORLD ORDER.

They absolutely want to steal our country, our freedom, our liberty, literally regulate and rule us in all manner of ways. It is positively NOT the role of our American government to do most of what they are doing and want to do more of, but that is exactly what tyrants do. Thank you China for the great, perfectly timed (before the 2020 election) setup of Covid. Thank you China and all the prominent politicians and their crime families on the take, you have reportedly paid so many millions of dollars to, and for so many years! You are the great beneficiary. It’s so obvious. China first. America last.

You may understand that the current Marxist party in complete power (and wanting more every single day!) despises traditional America, our history, founding, Constitution, freedom, liberty, individualism, our very way of life, and of course our 2A. Tyrants always find a way to eventually confiscate firearms to keep people weak, obedient and submissive, ever eager to follow instructions and mandates like (1) wearing their statistically ineffective Covid “masks of compliance” that “virtue signal” to all, that the wearer is ever at the ready to sit down, shut up, and obey, and (2) take all the Covid “vaccines” that neither prevent catching nor spreading this serious virus. You may understand that it’s not and never was about medicine, per se. It was and still is always about power, control, forced compliance, and extreme punishment of one kind or another, if you don’t submit!

You may understand that their ultimate goal is to pretty much rule over everything you do, say, think, eat, purchase, where and how you live, travel, drive a car, you name it. In order to do so, they destroyed a presidency (the corrupt, cover-up media is an extension the Democrat party), are illegally flooding our borderless country with millions of future Democrat voters, crippling and breaking the middle class with impossible inflation, destroying our great economy and energy independence to bring us to our knees, as if it will measurably affect the climate one iota. It will not! Oh, what a GREAT GREEN CON! And for what? So we will be powerless to do anything except obey and comply with the New World Order! It will be shoved down our throats and if necessary, up the other end too.

Is this what our great patriotic Founders and Framers risked all for, in pledging their very lives, fortunes, and sacred honor? Is this what our great patriotic war heroes lived, fought, and died for? Shame of shames! And yet we elect these power mongers who suck at the government teat and hate America enough to destroy her from within, from the inside out, and then “reimagine” her as a Marxist tyranny ... Lady Liberty weeps!

You may fully understand that the Marxist regime desperately wants to make our 2A so expensive, so time involved and ridiculously over-regulated, that it will become

impossible for you to jump through all their unconstitutional hoops. In other words, they want you to be so sick of it, that you will eventually give up!

What I DO know with 100% certainty, is that besides being worried, angry, and thoroughly disgusted, you are **FRUSTRATED**. No matter what you say to those on the other side who call you names like racist, bigot, and homophobe, they will continue to despise the 2A, and will never believe you have the right to protect yourself. You are somehow to blame for the acts of others, like crazy people doing crazy things when they rob you, beat you, burn down your home, business, house of worship, or otherwise hurt innocent people and destroy our society.

They believe that since you have privilege, you somehow magically owe criminals your personal property and whatever else they want! You owe them because they are entitled victims, and you are to blame. Their actions are your fault. Woke (in)justice handcuffs the victims and frees the lawbreakers all because America hasn't become a more perfect union fast enough for their satisfaction. So just you remember, if something is about to happen to you that rises to the level of serious bodily injury or death, it's really your fault, and furthermore ... you deserve it!

If you dare to defend yourself, regardless of constitutional rights and laws on the books, depending on your local D.A., you may very well be arrested, jailed, and put on trial. Regardless of outcome, the process alone becomes the punishment, and your life may well be ruined, financially and otherwise, forever. And of course, they know that.

This Marxist political party of death believes you should just "take it and die" if a crazy person chooses to seriously injure or kill you. Be a good little victim. Be reduced to begging and pleading with a madman. Go ahead. See if they care. Believe me, they don't. You are nothing more than collateral damage for the greater good of the collective. Individuals do not matter. The truth is, your death is no more important to them than the death of a fully developed, 9-month baby about to crown.

Make no mistake. This is a totalitarian party of three kinds of death: (1) They ignore your (actual) right to defend yourself against significant bodily injury or death. (2) They invent out of nowhere a (make-believe) right to kill a 9-month baby! (3) They could care less about the scores of black-on-black shootings and murders that happen every weekend in Democrat cities with the strongest "gun control" imaginable. They only care about deaths that fit their political narrative so that they can then do what they do best: LIE FOR POLITICAL ADVANTAGE! This always means - blame and punish the lawful gun owners who have done nothing wrong, and of course, confiscate those evil guns that are weapons of war and kill people. In truth, it's really only about "people control." That is the basis of THE GREAT GUN CONTROL CON.

And if you disagree, you have blood on your hands and want children to die! This from an administration that allows open borders and enough drugs like fentanyl to

enter the country and kill many millions of children, their parents, friends and neighbors. Talk about allowing mass murder into the country! China certainly knows exactly what it is doing. But the wall was Trump's idea, so of course it can't possibly be allowed to be completed, even though we already paid for it! The prospect of future Democrat voters "trumps" the deaths of American citizens.

All tyrants endlessly LIE to FOOL and CON their targeted audiences ... until it is too late. Once they are in office, it's always too late. And sadly, most people never seem to learn this lesson, election cycle after election cycle. Are they incapable of learning? Or are they too damned lazy or stupid to make the effort to stay informed and vote responsibly? In the end, it really doesn't matter why. Either way, they are to blame for what we all have to live with and suffer through.

Eventually, tyrannies always end in suffering, poverty, starvation, and total societal decay and collapse. There is not one counterexample.

If and when you sincerely try your best to discuss these incredibly serious issues with the other side, I know you get even **MORE FRUSTRATED**. You continually find out that they will not listen, shout you down, and call you yet more names like entitled, racist, deplorable, privileged, domestic terrorist, and worse.

You continually find out over and over that way too many people genuinely **DO NOT KNOW** anything factual. You want to scream from the rooftops "pay attention, damn it! Wake up!" But they just **DO NOT KNOW**. Only propaganda. They are so invested in provable lies, that their so-called political opinions about the 2A, firearms for self-defense in the hands of law-abiding citizens, are nothing short of cult status, their new secular religion! They believe. They know. And you're still a racist, deplorable, and evil.

In their profound ignorance, they hate you. They absolutely can become seriously addicted to not only feeling hate and rage, but acting upon it! You now need to be cancelled and destroyed. Why? Because you are a threat to their New World Order, and such threats need to be eliminated.

The question now becomes, what percentage of these rage addicted haters will take to the streets, our neighborhoods, our public buildings, and do G-d knows what to innocent people? At this point, the mob will act on their hate and rage because they are addicted to it. They like hate and rage!

As our side knows better than anyone, it's never about "the gun" or any inanimate object, but always about a troubled or deranged human being, out of control. Always!

No matter what you do or say, no matter how accurately, no matter how articulately, no matter how respectfully, it won't matter a tinker's dam. They are somewhere between dumb as a rock and having so much invested in the Bulls Hit they've been

fed for so long, that it's hopeless. There is too often nothing that you can say or do, that will make a difference, that will really make any difference.

This is why you are **INTENSELY FRUSTRATED!** Realizing you are beating your head against a brick wall and wasting your time, generally has that effect on rational people.

And now, I have a confession to make. I deliberately wanted to get you to remember and feel what we both (you and I) are dealing with here, so I can share with you the whole point of this writing. Without me first eliciting your remembered emotions, fears, frustrations, and all that goes with it, you wouldn't otherwise take what follows as seriously as I want you to. It is that important, as this is not just another 2A article to skim through. If you skim it, you'll miss "it."

But before I introduce an important article about the "why" and "what to do about it," I need to share with you a "how" formula of my own creation.

**PGP ----> PPP**

**Public Gaslighting Propaganda ----> Political Propaganda Psychosis**

In brief, the Public gets Gaslighted by Propaganda. When enough Kool-Aid is swallowed and washes down the PGP, this will yield Political Propaganda Psychosis, PPP.

A brilliant psychologist and NRA instructor friend of mine believes in a Collective Delusional Psychosis. And of course, he's right. But I want to make it clear that otherwise perfectly functional people we all know, can lead mostly normal, mostly happy lives ... and yet they can suffer from a highly metastasized, non-global but specific, toxic political belief system, wherein they can indeed suffer from PPP. They can and will present hate, rage, irrationality, cause harm to others, and become absolutely, irreversibly, unreachable. That's PPP. Totally infuriating! The only known guaranteed cure is to defeat them at the ballot box ... if you can find a fair one.

Lastly, Dr. Mercola and Professor Desmet will use the term Mass Formation, a form of Mass Hypnosis. I'll let these gentlemen take it from here. Their remarks are true for the 2A, Covid, virtually any PPP. Please keep that in mind when you read the article. I promise, it will speak deeply to you, explain the "how" and "why" you feel so frustrated, and "what" to do about it.

**Elisjsha Dicken and Constitutional Carry  
saved lives in Indiana...  
but the media is suppressing the story**

Constitutional Carry was 16 days old and Elisjsa Dicken was 22 years old when they both saved countless lives in an Indiana Mall, when a violent criminal indiscriminately began to murder citizens in a public place. The attack was over in 15 seconds because an armed and well-regulated American didn't wait for government to save him. He saved others.

He should be celebrated, yet the media downplayed "the Good Samaritan". The media will repeat the name of a crazed mass murder, but they will not publicize the name of the law abiding American that took it upon himself to protect himself and those around him. I say, God bless Elisjsa Dicken and God bless any American that arms themselves for self-protection and for protection of those that they love.

## **How Old Were The "Founding Fathers" When They Founded?**

Todd Andrlik wrote an article called "**[Ages of Revolution: How Old Were They on July 4<sup>th</sup> 1776?](#)**" He researched and compiled a list of Founders (and others of the timeframe), men and women who did their part to win our independence from the

Tyrant King George. Here are a few mentioned in his article and their age at the time of the Revolution:

Marquis de Lafayette, 18  
James Monroe, 18  
Gilbert Stuart, 20  
Aaron Burr, 20  
Alexander Hamilton, 21  
Betsy Ross, 24  
James Madison, 25  
Thomas Jefferson, 33  
John Adams, 40  
Paul Revere, 41  
George Washington, 44  
Samuel Adams, 53

I find it ironic that now, Lafayette and James Monroe would need to have additional scrutiny to purchase certain long guns and depending on what state they were in, might not be able to own, possess, or purchase a handgun. Today, they *might* still be “revolutionary” or maybe they won’t care because they can get stoned instead... oh well, whatever, nevermind.

However, under the Affordable Care Act, Lafayette, Monroe, Stuart, Burr, Hamilton, Ross, and James Madison could remain on their parent’s health insurance. They might take comfort that they are being provided for. Free is cool right? Hey mom is there anything to eat?

Right now, John Adams, Paul Revere, George Washington, and Samuel Adams’ 401K would be pretty much worthless because of inflation so perhaps *they* might still be “revolutionary”, unless perhaps they'd rather binge watch that new Netflix show... maybe they can be “revolutionary” next week.

I think perhaps, my sarcasm aside, the men and women who risked **everything** for independence, your family members that fought in wars to protect the **American way of life**, your ancestors that risked **everything** to come to America to make a better life for their family... they might all say... *“What the F&%k have you done with our Country?”*

**No longer must we stand by and let the insane run the asylum.**

We The People must speak up, speak out, and take back our country. We must elect patriots and un-elect tyrants. We must get record number of Liberty loving Americans to vote IN PERSON on election day and continue to fight tyrants and bad legislation in the courts. We must educate our fellow Americans to do the same. We must teach people to exercise their rights and stand up for others that do the same. We must not

allow the “elected class” to live above the law, we must insist that criminals be punished not empowered. We must fight anyone that advocates for the restriction, limitation, or abolishment of ANY American’s individual rights and Liberties.

***‘How many doors must the man knock on,  
before he can take all the guns?’***

*(to be sung to the tune of “Blowing in the Wind” by Bob Dylan)  
‘The answer my friend, is over 24 million.’*

The following was from the latest newsletter released by the National Shooting Foundation and it was titled:

Commonly Owned: NSSF Announces Over 24.4M MSRs in Circulation.

NSSF updated the industry estimate of Modern Sporting Rifles (MSRs) in circulation in the United States to **24,446,000 since 1990**, an increase of over 4.5 million rifles since the last estimate was released in 2020. This most recent estimate includes production figures current through 2020, when the industry estimates over 2,798,000 of these rifles were produced or imported. “The firearm industry responds to market demand and this shows that during the elevated period of firearm sales that began in 2020, this particular style of rifle is the top choice for law-abiding citizens for hunting, recreational shooting and self-defense,” said NSSF President and CEO Joe Bartozzi.

## **Final Thoughts**

August is **National Shooting Sports Month**. Bring one of those Millions of new gun owners to the range. Despite the governments' best efforts, more Americans are purchasing their first firearm and exercising their right to own and bear arms. **The US Concealed Carry**

**Association is launching a new AR-15 curriculum** to meet the training needs of millions of new AR15 owners. Countless Instructors across the nation are

empowering our fellow Americans to become their own family first responder and exercise their most basic right to self-defense. 1000's of clubs across the nation are introducing youth and non-gun owners to basic gun safety and recreational shooting.

**You don't need to have a certification to spread the gospel of safe gun handling and responsible gun ownership.**

Last week I had the honor of spending the day with my Son as we introduced over 100 people to muzzleloaders at Pitcarin-Monroeville Sportsmen's Club for the annual co-sponsored Pitcarin-Monroeville Sportsmen's Club / Allegheny County Sportsmen's League Family Field Day. It was a lot of work but a rewarding day. I got to expose a wide range of people (some very young and small) to a little history, heritage, and marksmanship... all very American things. Watching these kids as their eyes widened and their faces smiled as the rifle went "bang" and the white smoke hovered over the firing line was priceless. I know that for many, this positive experience may lead to them becoming of a future family first responder. An American that will value their individual rights, and that of others.

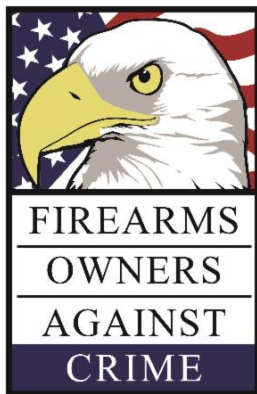

Do your part to help educate and empower the current adults and help set up the next generation of adults for success.

Keep your powder dry.... And don't let the "Red or Blue Coats" take it!

Stay Armed and Be Well Regulated!
